

Quick Start Card

Stamp Collection Inventory & Valuation Toolkit - v2.0

1	Open Open Stamp-Inventory-Template.xlsx. Use SAMPLE only as an example.
2	Set up Complete the yellow cells on About, including purpose, basis, currency and date.
3	Photograph Take one sharp, well-lit page photo and give it a clear filename.
4	Inventory Enter one row per stamp or identical group. Use quantity 1 for a single stamp.
5	Reconcile On Per photo, enter the same filename and your independent visible count. Resolve CHECK.
6	Track Mark each album page photographed and inventoried on Progress.
7	Value Research flagged rows; enter a per-stamp estimate in yellow est_unit_value cells.
8	Review Read TOTAL on Summary. Verify valuable or forgery-prone items independently.

Colour key

	Gold - worth further research		Blue - physical check needed
	Coral - low-confidence ID		Yellow - value input

Remember

TOTAL always covers the full Inventory. Country rows are optional. Values are estimates, not authentication or a professional appraisal.
